## Fairfax County Public Schools

---

**DATA EMBARGO IN EFFECT.** SAT Suite of Assessments information in this report is embargoed from dissemination to the media and general public until the College Board makes it publicly available **by the end of September**. Prior to that time, you may use the SAT Suite data and other information in this report for internal purposes. AP data and information is not embargoed and may be used publicly at your discretion. If you have questions, please contact the College Board communications department at [communications@collegeboard.org](mailto:communications@collegeboard.org).

---

### Number of Students Taking SAT, AP and PSAT-Related Assessments

	2021	2022	2023	2024	2025
SAT Graduating Seniors	9,318	9,880	9,759	10,306	10,061
AP All Students	15,342	15,450	16,830	17,654	18,593
PSAT NMSQT/PSAT 10 - 10th Grade	6,857	12,422	12,357	12,999	12,561
PSAT NMSQT/PSAT 10 - 11th Grade	7,485	12,031	11,473	12,261	12,612
PSAT 8/9 - 8th Grade	TS				
PSAT 8/9 - 9th Grade	TS				

## Overall SAT Mean Performance

ERW	Math	Total
596	587	1183

## Performance by Race/Ethnicity

ERW	Math	Total
571	567	1138
623	642	1266
547	529	1076
537	523	1060
616	594	1210
621	607	1228
612	606	1219

## Performance by Gender

ERW	Math	Total
588	569	1157
603	605	1208
647	598	1245

## Performance by Fee Waiver\*

ERW	Math	Total
566	565	1132
599	589	1187

\* Reflects students who used a fee waiver for an SAT or Subject Test registration for a Weekend administration compared to weekend test takers who did not. Students who take the SAT on a School Day are generally eligible to receive fee waivers or reductions through their schools; for more, visit [www.sat.org/register](http://www.sat.org/register).

## Data Notes

**SAT Participation and Performance:** Data reflect SAT test activity for students who graduated high school in 2025. If a student took the SAT more than once, the most recent score is summarized. SAT data contained in this report reflect frozen snapshots of College Board's integrated data system as of mid-July after each respective class graduated. Thus results may differ slightly from analyses run at other points in time or based on different population definitions.

**AP Participation and Performance:** AP Exams are administered at the end of each school year. Statistical Information about AP Exam takers is based on all students taking AP for each year reported. AP Data contained in this report reflect a frozen snapshot of each academic year's AP exam results as taken in mid-July of that year.

**PSAT-related Assessments Participation and Performance:** Data reflect students who took PSAT/NMSQT and/or PSAT 10, or students who took PSAT 8/9 during the 2020-21, 2021-22, 2022-23, 2023-24 or 2024-25 school years. If a student tested more than once within an academic year and assessment (e.g., took PSAT/NMSQT in fall and then PSAT 10 in spring; or a student who took PSAT 8/9 in both fall and spring of particular school year), the most recent score and self-reported questionnaire responses are summarized.

**Mean Scores:** Throughout this report, mean scores are only reported for populations consisting of at least ten students.

**Racial/Ethnic Background:** College Board is the source for examinee race/ethnicity. College Board follows federal guidelines regarding collection of race/ethnicity data. Aggregate race/ethnicity derived from two separate questions that students respond to; see here: [https://nces.ed.gov/programs/handbook/data/pdf/appendix\\_a.pdf](https://nces.ed.gov/programs/handbook/data/pdf/appendix_a.pdf)

Note the following regarding abbreviations of the reporting categories - American Indian includes Alaska Native, Black includes African American, and Pacific Islander includes Native Hawaiian. Although "Other" as an option has been discontinued it may continue to be reported for historical reporting purposes. Students who are reported as "Two or more races" are non-Hispanic. Hispanic includes all students who self-identified as Cuban; Mexican; Puerto Rican; or Another Hispanic, Latino, or Latin American on the ethnicity portion of the race/ethnicity questionnaire.

**American Indian Self-Identification:** Data describing American Indian student participation should be interpreted cautiously. Changes to collection of student data made between 2019 and 2020 increased the rate of students mistakenly self-selecting Native American or Alaska Native, impacting reported values for 2021 and 2022 in this report. A tribal affiliation field has been added to improve reportable data for future reports.

**Change from Last Year:** The change from last year for frequency data (number of test-takers or exams) is represented as a percentage change. It is obtained by subtracting the previous year's total from the current year and then dividing this difference by the previous year's total, which is then multiplied by 100.

**Framing AP Score Distributions:** Students take rigorous AP® courses in high school, in part, for the chance to earn college credit and placement through a score of 3 or higher on the exam. Evidence also shows there are benefits to taking AP courses even for students who don't meet that threshold. Many students who first score a 1 or 2 on an AP Exam will take further AP courses and score higher. Further, AP students who earn a score of 1 or 2, or average a score of 1 or 2 across their AP Exams in high school, have better college outcomes than academically similar college students who did not take an AP course and exam.
