

STOP RAISING TAXES!

Do you know...

The Fairfax County Board of Supervisors is proposing a **7.5% real estate tax hike, costing the average homeowner \$650.** (Did your income increase 7.5%?)

For 25 years, the Fairfax County real estate taxes have been **increasing 3 times faster than household income.** This year's tax hike is the **largest in 10 years.**

What do we get in return?

- A 40-point drop in Fairfax County Public Schools SAT scores between 2019-2024 (while spending increased \$600 million).
- Unaffordable housing due to spiraling real estate taxes
- A business-hostile government (slow permitting, and businesses must pay 13 taxes, soon to be 14 for restaurants with a new meals tax)

The only way to stop soaring taxes is to **threaten the supervisors' reelection in 2027.** Come to the **TAXPAYER RALLY** on the first night of the supervisors' budget hearings:
